

GUESTS ARE MADE COMFORT-  
ABLE.

**Do You Know**  
That a large percentage of deaths in this country is caused by consumption and lung trouble? A little cold neglected in the beginning often terminates in consumption. Every time you cough you increase the trouble, and an inflammation is soon started, which is difficult to control. There is one remedy that cures quickly every kind of a cough. That is Dr. Hale's Household Cough Cure. It is the best. Are you not entitled to the best? For sale at 25c. and 50c. a bottle at Short & Haynes Drugstore.

that night a rather exciting race occurred on the river between this point and Benson's Landing. The City of Owensboro and the Royal left Giesson's exchange together and ran down and up to the head of the Royal. The "City" got off a little ahead of the Royal and was about three gals out in the river when the Royal pulled out. She kept this lead and gradually increased it until she was nearly a mile ahead when she landed at the warf the Royal was nearly a mile behind. Owensboro's quiler.

You can afford to be annoyed by the "Cliche" and "Conspicuous" don't be. De Witt's Little Early Risers for the little pills will cure them. A. R. Harris, Gloverport, and Witt & Mendor, Indianapolis.

crowded with parents and friends of the sweet-faced graduates and almost everywhere carried a pretty bouquet of flowers. The principal, of this city, was among the graduates. During the presentation of the medals, Miss Sulzer in a pleasant address, presented one of her classmates, Miss Clara Pingst, with a badge, representing the regard of the graduates for the younger pupils. The stage was a perfect bank of flowers at the conclusion. After the exercises, Miss Nold, principal, presented a number of the graduates. The guests had been invited and the ample refreshments were well filled. Dancing, music and a merry time followed.—Cannon City.—Telephone.

assumption. She is from a consumption of the "hectic flush" set in. Well I went for Dr. Fennel's Gripe-Water. It dropped on a small ump of sugar, every 3 hours. I used it with her about a month and you ought to see her cheeks and her hale and buxom. I am knowing to several other cures of consumption by it."

It is not only good for consumption, but for all the other grave cases that it cures a burn in 12 to 24 hours, or heals a bruise or fresh cut in 12 hours. It is good for all the swellings or matting. The injured part can be used without pain. It also cures quins, and all the other swellings, and with any disease where there is inflammation or pain. One tablespoonful three or four times a day. If it cures Gripe, it gives. Never despond. Contains no opium, morphine or mineral poisons. Take a bottle today.

**REMEDY FOR PILES.**

## AT THE WORLD'S FAIR.

Last week I spoke of the largest, and the costliest buildings at the Fair, but never mentioned the thirty-six state buildings which one can visit and be never more paid for his trouble. But I surmise that before you will have made half the rounds you will have tired of the mammoth displays and set down exhausted and bewildered, it may be, and concluded to give up the task of seeing the great fair and its numerous and costly attractions. I do not know, but many see the fair covers, but I heard it said that if you travel all over the grounds, and through all the buildings you will get weary of the things, and think of it. And yet people go there and walk, and walk, and walk, seemingly unconscious of the distance. Sooner or later they get tired, and that they go from one building to another until perhaps night may overtake them a mile away from the entrance gate. Then they are broken down with no conveyance at hand but a wheel chair which costs seventy-five cents an hour. Few people can afford them, however, and the result is that a person of moderate means is compelled to hire a car. I heard it suggested that it would be a great accommodation to the bulk of people who attend the fair, that if omnibuses could be allowed on the grounds, and be allowed to carry them from one building to another, say for a fee of ten cents. This would relieve the sight-seers of much worry. During my stay there I saw hundreds of people, men, women and children, round up at a building perfectly exhausted. During the months of July, August and September, I heard the weather will be hot in Chicago, and especially out at the fair, and state pavements will attract the heat to such a degree that pedestrians will find it very uncomfortable, and probably dangerous. October will be decidedly the best month to visit the fair.

When you go out, go in at the first street entrance and go to the corner of the Farmer's building. Inquire for Mrs. Peter Palmer, and you will not see her just the same. She is quite the handsomest woman in Chicago, a big, big, big, and a "business gal" from away back, that you can skip around through the big building and look at the many beautiful things the women have on exhibition there and you will feel better towards them for having done so.

Passing from here go over to the Mechanics building, and you will see some of the grandest things in the world. France, Germany, Russia, England, Spain and many other foreign nations have exhibits that excel in beauty and artistic arrangement, and you will see before you a fine work of small pieces of statuary from Rome at \$800, another at \$1,700, a set of tableware at \$5,000, a pair of vases at \$10,000, gold, silverware and other things, every conceivable pattern is to be seen in the foreign exhibits and nothing surpasses it in this country.

At the Transportation building you will see the first "John Bull" locomotive. It is not the only odd looking structure of the kind there, however. Some half dozen others, equally as ancient in appearance stand along with it. At another point is an engine of modern make and a magnificent Pullman sleeper.

to be. In the Educational department of Kentucky my attention was called to two pieces of drawing from students in Cleveland.

When you have seen the great fair return to Chicago, and drop in and take a look for ten minutes upon her Road of Trade, it will pay you. Then take a run on the underground railway to Lincoln Park. If this doesn't satisfy you, you can take a run across Lake Michigan but it will take you all day to make the trip. A visit to the city of Chicago alone is worth all it will cost you. It is a wonderful city, second only to New York in size, and containing one million five hundred thousand inhabitants. The World's Fair, however, will make her the leading city in the United States and probably second to none in the world.

You cannot tire of sight seeing in Chicago in two weeks. All kinds of people are to be seen and many more of them than you have any idea of. Her buildings are marvels of what can be constructed. It is common to see them occupying a whole square. As to height they run from ten to twenty stories. Her streets are a perfect mass of moving humanity day and night.

When you start from Louisville take the Pennsylvania line. It is second to none in the country, and will compare favorably with any other route as to rates.

We publish in this issue "Some points on banking" from the Louisville Commercial. It is worth your perusal. You can get some information on the subject by conveysance at hand but a wheel chair which costs seventy-five cents an hour. Few people can afford them, however, and the result is that a person of moderate means is compelled to hire a car. I heard it suggested that it would be a great accommodation to the bulk of people who attend the fair, that if omnibuses could be allowed on the grounds, and be allowed to carry them from one building to another, say for a fee of ten cents. ## HARDINSBURG.

L. H. &amp; W. TIME TABLE.

Passenger Daily car, Hardinsburg, 12:45 p.m.

Passenger Daily car, Hardinsburg, 7:30 a.m.

County Court day next Monday.

Miss Blanche Bell is visiting here from New Albany.

Mrs. Judge Milton Board is visiting in Dayton county.

Mrs. Allen Cole, of Maysville, is visiting Mrs. Daniel.

Deputy Sheriff C. B. Miller was in Cleveland yesterday.

R. G. Robertson, Rock Vale, was in the city last Saturday.

Mr. and Mrs. Thomas Withers went to Kirk last Saturday.

Tom Withers is selling the Deering Mowers and Binders.

Miss Adel Smith has returned from a visit to Stephensport.

Anything you see on farm machinery Tom Withers can furnish.

A nice lot of fresh breakfast bacon just received at W. B. Hardin's.

Farmers want to get a move on them while this fine weather is here.

Tom Withers will sell you a buggy or cart cheaper than any one else.

Miss Katie Eckridge returned from a visit to Owensboro last Saturday.

Be sure and see me before you buy a Binder, Mower or Buggy.—Tom Withers.

Keep in mind the big picnic for this town July 4. It will be run by Budy &amp; Co.

Mrs. Sutton, the milliner, expects to move into her new house within a few days.

Mrs. Ed Wright, of Louisville, came down last week and will spend several weeks.

Mrs. Thomas H. Ditto and daughter, Virginia, Meade county, are visiting here this week.

If you want the best and most durable sewing machine you can buy, call on Budy &amp; Co.

Mrs. Nellie Cox returned last week from an extended visit to Louisville and New Albany.

Mr. Elijah Board, who has been an invalid for several years, is gradually growing worse.

Remember that W. B. Hardin's is the place to go to get your picnic supplies the coming summer.

I have associated with me in the Jewelry and Musical business Mr. Jas. Kinchloe.—T. C. Lewis.

Mr. R. Carl Richardson was last week appointed trustee for the estate of E. J. McGlothlin, deceased.

Mayor Budy and Chief Tennyson are in Louisville. Supposed to be manipulating something political.

HARDINSBURG JEWELRY.—Everything in Jewelry and kindred arts, from bottom to top, at the Hardinsburg Jewelry Co.

The City Council has decided to expend \$300 on improving the street leading to the depot. The work will begin at once.

We carry the best line of assorted cakes in the city. Always fresh from the United States Baking Company.—W. B. Hardin.

Melvill, the four-year old child of Mr. and Mrs. Wm. Downs, near this place, died last Tuesday evening at five o'clock of croup.

Miss Hattie Meale is quite ill with rheumatism at her home in Louisville and has not been able to be out for about four weeks.

You can buy four pounds of rice at Hardin's for twenty-five cents. You can't do elsewhere in this town.—W. B. Hardin.

Last Saturday was like an old-time business day in Hardinsburg. The streets were full of people and the merchants were busy.

Just received at Board &amp; Beeler's a new lot of faces, dress goods, etc., cheap for cash and a guess at your jar beans.—Board &amp; Beeler.

Mr. Alice Baker, quite an aged lady and the mother of Dr. J. A. Baker, of this place, is very ill at the residence of Mr. Matthias Miller.

If you are sick we can furnish you medicine to cure you. If you want clothing, shoes, hats, etc., we can supply you.—Board &amp; Beeler.

The 4th of July will be celebrated by the grandest parade and picnic that has ever been given at this place. Look out for large bills.

Miss Miller has been appointed administrator of the estate of Allen Allen, deceased, and Mr. Riley Snyder administrator of the estate of Geo. W. Snyder, deceased.

Licensed to marry: John A. Frank to Miss Mary Jane Frank, William Bush to Miss Cassie Thomas, James E. Nichols to Miss Sallie Sallie, N. M. Priest to Miss Lucy G. Board.

Miscellaneous.—Everything to your taste. Your heart made merry. Call and see our new stock of Organs, Pianos, and other pieces.—T. C. Lewis &amp; Co., Hardinsburg Jewellers.

The City Council proposes to improve the looks of the Court-house square by laying a brick pavement around a portion of it. The old wooden one there now will be abolished.

There was something like a family reunion at Mrs. R. G. Gardner's a few days ago. All of her children and grand children were here on a short visit. Mrs. Gardner is getting old and she is not pleased unless her children can all visit her at least once a year.

Notice.

I have just painted, papered and re-furnished my saloon. The best brands of whiskies always on hand and at the lowest figures. A schooner of beer for a nickel. South side Court Square.

R. E. MATTHEWS, Prop.

Mr. J. E. Nichols, of Cloverport, and Mrs. Sallie Sallie, N. M. Priest to Miss Lucy G. Board.

Miscellaneous.—Everything to your taste. Your heart made merry. Call and see our new stock of Organs, Pianos, and other pieces.—T. C. Lewis &amp; Co., Hardinsburg Jewellers.

In purchasing Alt. Taylor's farm Mr. Slaton put in as a part consideration a house and lot in this city. The house is newly built and located on the street leading to Mrs. Daniels. It is surmised that Mrs. Taylor may take it and return to Hardinsburg to live.

Considerable interest was felt here among the leading politicians last week over the appointment of a Collector in the Second District. They are all for Powers, but could hear nothing definite about the situation, although the telephone was kept busy for several days. Jimmy Kinchloe has bought an interest in T. C. Lewis' jewelry store. Mr. Lewis went to Cincinnati last Saturday to lay in a new stock of goods in his line. Since moving into his new house he has one of the showiest establishments of the kind to be found in the county.

Major Morris was in the city one day last week. He has already opened the rock quarry at Bennetts, and will push the work on a larger scale this year than formerly. The asphalt mines, near Garfield, he said would be opened the first of next month. These two enterprises place considerable money in the county by employing some fifty or one hundred hands.

Mr. George Allen Compton reports the blackberry crop short this season. Mr. Compton and two of his brothers have supplied the residents of Hardinsburg with this fruit for several years, but he's afraid they can't do it this season. He says the crop will undoubtedly be better and those who want berries had better speak early.

Mr. Thomas McClure received the appointment as Postmaster at this place last week. He will not take charge of the office before the first of next month, as the present quartermaster and the work of going off will have ample time to wind up his accounts and make final reports. The new office will likely be opened in the new building owned by Mr. Barnes.

Only twenty-five hundred dollars has been subscribed to the college fund up to this time, and at a meeting last Friday night it was decided to begin the work with that amount. As the work progresses the directors feel assured that additions will be made to the amount on hand until it reaches the sum of \$10,000. The house will be frame, but amply large for as many pupils as may enter the first year. The location has not been fully decided upon yet. It is the general desire that it be put on the street leading to the depot. An acre lot here, very suitable for the purpose, can be had at reasonable figures. Prof. Shackelford at Harlan has decided to remain here if everything progresses favorably.

## STEPHENSPOET.

R. A. Shelman was in Louisville Tuesday.

Mr. R. A. Smith was in Hardinsburg last week.

Miss Emma Mosely went to Cloverport Wednesday.

Mrs. Sue Cox, of Owensboro, is visiting Mr. Dr. Napper.

Mr. Geo. Driskill was the guest of Miss Alice McCoy, Sunday.

Mr. Williams and family, of Owensboro, moved here last week.

Mrs. Henry Jolly passed through town Monday going to Union Star.

Miss Emma Driskill, of Union Star, is visiting her cousin Mya Hanks.

Miss Georgia Hawkins and Mr. Geo. Jamison went to Louisville Friday.

Mr. Bettie Lewis and Mr. Jamison, of the guest of her sister, Mrs. Gus Shellen.

C. C. Lewis has moved in one of the new cottages on the corner of Third and Main streets.

Miss Rita English, who has been attending school at Hopkinsville, will be at this place this week.

Mrs. C. McGlothlin, Mrs. Bob French, Miss Eliza Brashear, of Union Star, were in town Saturday.

W. B. English held service in the Baptist church Sunday morning, preaching a good sermon.

Mr. and Mrs. W. Crawford, of New Albany, were at the Smith House, Sunday and Monday.

Our new postmaster, J. T. Hanks, took possession of the office Monday, and was "down and out."

Mrs. Fred Brashear (nee Minnie Brashear) of Parkland, was the guest of her sister, Mrs. Napper, a day last week.

Mr. Julius Douthett, of Union Star, is having a new roof put on his store house on First street, occupied by Geo. Krenn, the baker and confectioner.

Miss Irene C. Board, of Hardinsburg, will be visiting Miss Lizzie Shiles, for several weeks, till Friday for South Carroll, where she will spend some time before returning home.

Mr. and Mrs. L. R. Adkinson gave our young people quite a nice party on Tuesday evening. The girls were very well served at the usual time, and all left feeling that they had been well entertained.

TO THE P. O.

My four years are out and I'm leaving, my leaving in Kentucky, my leaving in Kentucky, my leaving in Kentucky.

I have a new life to begin.

WEDNESDAY, JUNE 14, 1900.

#### LOCAL BRIEVITIES.

Milk shake at the City Bakery.

Let old glory fly! Suler's self flags.

Ang. Brown will collect your bills for you.

Fresh candies, nuts and fruits at the City Bakery.

Fresh eggs and spring chickens at O'Brien's grocery.

The first one of Suler's favorite cigars yesterday and were happy all day.

We filed one of Suler's favorite pictures yesterday in the City Bakery.

"Types made on short notice for all except small children at Knight's gallery."

The complete stock of staple and fancy groceries may always be found at O'Brien's.

Prevent cholera by using Crude's Carbolic Acid around your houses. A Sure Germ Destroyer—Suler's.

The U. S. light-house boat, Golden Rod, passed down last Friday evening, distributing supplies and paying off.

Mr. Lew. Stewart, of Concordia, and Miss Edith Anderson, of Dexter, Indiana, were married at Derby, Indiana, May 27th.

The ladies of the Baptist church will give an Ice Cream supper in Mrs. Weaver's yard, corner Wall and Center street, Friday night.

J. E. Keith & Son received 76,000 pounds of stone and marble last night. This seems to be one of the prosperous concerns of Cloverport.

Dr. E. L. Hays has moved his dental office across the creek, and will in the future occupy the office at the Upper House in connection with Dr. Smith.

C. C. Martin's lunch house, on Huston street near the depot, was broken into Monday night, and the cash, cigars and tobacco was stolen. Loss about \$25.

Marshal-Engineer-Pound-keeper "Fig" DeHaven has moved off the hill down into Cynthiana. His residence now is on Railroad street, between Oak and Chestnut.

The juvenile society gave a very pleasant entertainment at the residence of Mr. and Mrs. R. B. Pierce last night. All present were highly entertained.

The grocery firm of C. J. Fells & Co., has changed hands and the store is now O'Brien & Co. Mr. Fells went out, and his interest was bought by "Erre" O'Brien.

Mr. G. T. Barbee wants it to be known that he has a complete painting, graining and paper-hanging outfit, and can do work promptly and with dispatch. Mr. Barbee is an adept at his profession.

The average number of bricks made daily at the Acme Brick Works during the month of May was 40,140. The calculation is based on an average of ten hours a day. The largest output for any one day was 50,100. The Acme is the largest single brick plant in the world.

There was quite an excitement created in Cloverport last Friday night when it was reported that R. E. Woods was among the killed at the old Ford Opera house in Washington City. Telegrams were sent to Washington, and the reply came that Woods was not in the building.

The bicycles and other vehicles are about at a stand here in Cloverport now. A couple of weeks ago a team became frightened at some bicycles and ran away and tore up a wagon. Last week Ernest Bahlgren ran into a wagon and smashed up a bicycle.

The Owensboro Jockey Club will hold a three days meeting beginning July 3rd. They have arranged a good program (see 7th page of this paper) and some good sport can be expected. The Owensboro track is the best half-mile track in the state, and there will be some of the very best horses in the country compete for the purses offered.

Young Chas. Moorman passed through from Shavannetown, Illinois, to his home in Brandenburg. He took the train from Cloverport Hotel having come from Owensboro that morning. He expected to reach Brandenburg by six o'clock P. M.

Fred Fraize and Emmet Gregory collided on their bicycles one night last week, and the result was there were two wrecked "bikes" and a couple of dazed young men. Though neither was seriously hurt. The collision occurred on High street, near the East end of the iron bridge.

At a called meeting of the City Council last Friday night the property owners on Wall street discussed the establishment of a grade on said street. There is considerable objection to the new proposed grade, on account of its putting some houses above the sidewalk and some below. This it should be remembered, is not the height of the grade, but is solely due to the irregularity in which the buildings have been erected. Had the grade been established twenty or thirty years ago, as it should have been, there would be no such irregularity, and coming to some conclusion that some bone of contention will be gnawed over.

Carry home one of Suler's umbrellas. (Singer also and pop at the City Bakery. Ice cream constantly kept at the City Bakery.)

Fresh vegetables of every description at O'Brien's.

Ice cream at C. C. Martin's every afternoon and night.

Aug. Brown will write your deeds, contracts, mortgages, etc.

You can get wall paper and border at the same price at T. F. Sawyer's.

Wick Moorman went to St. Louis Monday to look after his stable of racers.

The T. B. U. S. will give a dance in Boyd's hall tonight. It will be a swell affair.

If you live in Cloverport now and don't own a bicycle, you are not in it "at all."

Mrs. Thomas Ryan has built a new palling fence around her property on Second and Huston streets.

You'll know it when you go to Knight's gallery and have your picture "took."

The sale at the Irvington flouring mill was blown open Sunday night and about 800 taken therefrom. The cracksmen are unknown.

Felix Morodock, colored, while unloading a car load of stone for Keith & Son, got the end of his index finger on the right hand mangled off.

Mr. G. T. Marshall, of Irvington, furnished the coffin and casket for the John Nichols who was buried near Garfield Saturday, June 3rd.

H. R. Davis, of Henderson, passed through our city last Thursday with two fine saddle horses which he had purchased in Marion county.

Mr. James Manning, of near Moxleyville, is reported to be badly injured, and it is thought that he will die from the weakening effects of his injuries.

Lost—A black Polled Angus bull. Any information as to its whereabouts will be thankfully received.

WALKER BROS., Holt Ky.

Miss Fannie Smith was riding a bicycle all over town yesterday evening and with a little more practice she will be one of the most graceful cyclists in the city.

Cabinet photo's, \$3.00 per doz. of the finest Artistic finish. Don't wait for sunshine as I can make pictures any kind of weather by the lightning process—C. L. Knight.

WANTED—To trade a five-year-old dark bay mare for a yoke of oxen, not over seven or eight years old. The mare is fifteen hands high and is in good condition. J. E. Keith & Son.

John Carson went to North Vernon, Indiana, last week to see his son, Percy, who had his foot smashed between the bumpers of two cars some ten days ago. He lost three toes of the left foot by the accident.

Ed Gregory got in his work by placing attractive advertisements on the stage for Suler's at every entertainment given by the McNavin Comedy Company. When you get ahead of Suler's in advertising, you require early rising in the morning.

The High School building is being thoroughly repaired, repainted and papered, and it will be ready for a different appearance when the work is complete. T. F. Sawyer is the contractor. A new fence will also be built for the lot.

Dr. Newson broke dirt Monday for his new residence on First street. The building, when completed, will be one of the most beautiful in the city. It is 28 feet, two stories high, eight rooms, and the architecture is that known as the Queen-Anne style.

The "Extraneous" entertained the "T. B. U. S." at the residence of Mr. and Mrs. W. H. Brown Monday night in a manner just suited to their taste. The "T. B. U. S." will return the compliment by entertaining the "Extraneous" in a befitting manner at Boyd's hall tonight.

Mr. Alex. Maddux, of Evansville, is in the city the guest of J. D. Gregory. Mr. Maddux was born and partly raised near Cloverport, but it had been some time since he had seen the home of his childhood. He paid the old place a visit last week, but was somewhat disappointed in the appearance. Many changes had been made.

It is Miss Rose Allen that has been elected first assistant of the Cloverport High School. Instead of Miss Annie Allen, as we had it last year. The Principal has not yet been chosen, and there will probably be one selected for a couple of weeks yet. Frank Fells came over from Elizabethtown Monday and made application for the place and it is thought that he is favored by some members of the board.

Richard Pool, colored, died at Cairo, Illinois, and was brought here last Thursday for interment. Pool was a son of Lucinda Pool, of this city. He was a good man, and was well known as one of the best farmers that ever thrived a shovelful of coal into the furnaces of a steamer on the Western waters. He had been a member of the Cloverport United Baptist church for two years, and he died in the full faith of Christ.

U. S. Deputy Marshal Bowdoin and Chris Ahl went to Moxleyville last week and arrested John Redman and son, Bob Redman, and Chris Burck for moonshining. They found a still in a barn, and they had the place, and the prisoners claim that the still had been brought to secure a belt and had never been used for improper purposes. The prisoners were taken to Louisville, but they have given bond and returned home.

The McNavin Comedy Company went to pieces here last week. They had been playing in poor houses in Hawesville, and Cannelton and Cloverport was not able to pull them out of the hole. They were not entirely broke, however, for they all rode out of town, after first paying their debts here. Some members of the company claim that they were defrauded by McNavin and Langdon, who refused to pay them their salary when it should have been paid, and they were coming to some conclusion that some bone of contention will be gnawed over.

#### PERSONAL.

Mr. Jule Harlan was in the city Saturday.

Mike Popham and son went to Irvington Monday.

Mr. Mac Strerett is the guest of Mr. and Mrs. W. H. Bowner.

Mrs. Dr. S. Watkins visited relatives at Owensboro last week.

Miss Pearl Mays, of Webster, is visiting her sister, Miss Beatie.

Miss Griffith, of Owensboro, is the guest of Miss Sallie Daniels.

Dr. E. L. Hayes is up about Rome and Derby on a professional trip.

Jesus Owen spent several days last week the guest of his parents.

Mrs. O. A. Wynne, of Louisville, spent Sunday with her husband here.

Mr. George Wilson, of this city, visited Mr. R. Wilson in Cannelton last Sunday.

Miss Finley, of Henderson, is visiting Mr. and Mrs. Marion Hamblenton.

Mr. Paul E. Frost, of Irvington, was in the city a couple of days last week.

Mr. and Mrs. John Rowe went to Rome last Saturday evening to visit relatives.

Miss Brook Stephens, of Holt, will be the guest of Miss Margaret Bowner this week.

Miss Katie Eskridge, of Hardinsburg, was the guest of Dr. and Mrs. Hayes last week.

Ex-Deputy Sheriff, J. B. Biggs, of Stephensport, was in the city Monday on business.

Miss Eva and Eliza May are visiting their cousin, Mrs. E. H. Bridenbach at Owensboro.

Mr. G. W. Moorman left for St. Louis, Missouri, where he will join his stable of racers.

Miss Lena Dittman, of Owensboro, is the guest of her uncle and aunt, Mr. and Mrs. E. S. Seltzer.

Mr. and Mrs. S. E. Mattingly, of Rock Vale, were the guests of Mr. and Mrs. J. Dyer last Sunday.

County Assessor, Ben Cashman and son, Eugene, of Raymond, were in the city one day last week.

James Keys, of Irvington, was a passenger on the West bound train Monday, enroute to Owensboro.

Mrs. E. P. Mosely and daughter, Emma, of Stephensport, were in the city shopping one day last week.

Miss Gaudle and Julia Meador, of Skillman, were the guests of their sister, Miss Nannie Bates last week.

Mrs. John Beavin and children visited his sister, Mrs. Henry Wertheil at Cannelton, Indiana last week.

Mr. and Mrs. D. F. Wortham, of White Mills, spent last week at Irvington visiting their daughter, Mrs. G. T. Marshall.

Nat Tucker and family, of near Stephensport, visited Mr. and Mrs. Guard Ang, of Stephensport, last Saturday and Sunday.

Rev. Stiles, of Stephensport, and his father-in-law Mr. Huston, of Nelson county, were in the city one day last week.

Mr. T. N. Berry, of the shops, went to Morgantown Monday to visit relatives and friends. He will remain several days.

Miss Minnie Duncan, of Hawesville, is the guest of Miss Maggie Bowner. She will remain over to the dance Wednesday evening.

Mrs. Amanda Davis and grandson, Harry, of Louisville, are visiting relatives and friends at Tobinsport, Ind. and in this city.

Chapman Watson, of Owensboro, was a passenger on the East bound express Saturday evening enroute to Brandenburg, his old home.

Mr. Jas. E. Stone, wife and little daughter, Maud, passed down on the train last Friday enroute to see his mother, who is quite feeble.

Miss Rosa Wagener and Belle McCann, who have been visiting relatives near here, returned to their home at Rome last Saturday evening.

Mr. Jas. E. Stone, of Louisville, Mr. Ed Beard and Miss Lilly Scott, Hardinsburg, were the guests of Miss Lucy Frank, Mr. Pugh, last week.

Miss Mrs. Wagener and Belle McCann, who have been visiting relatives near here, returned to their home at Rome last Saturday evening.

Mr. Mil Miller, of Sample, was in the city Friday. Mill says that darning has not been good in sinking creek this season, because of too much high water.

Mr. Thos. McCord, July's Station, is visiting his daughter, Mrs. J. W. Tate. He wants it distinctly understood that he is not here to see the Keeley cure man.

Miss Lizzie K. Roberts, Breckinridge county, H. C. Trotter, Hawesville and M. D. Hayes, of Fordville, were registered at the Kentucky Building, World's Fair, last week.

James Hawkins, one of the Breckinridge boys who has made a successful drummer, was in the city Monday, exhibiting his clothing sales to our merchants.

Mr. and Mrs. U. G. Hill went to Henderson last Wednesday to see Mr. Hill's sister who is very sick. Mrs. Hill will remain several months visiting relatives there.

Miss Lizzie K. Roberts, Breckinridge county, H. C. Trotter, Hawesville and M. D. Hayes, of Fordville, were registered at the Kentucky Building, World's Fair, last week.

Mr. A. M. Kasey, Mrs. Raitt, Miss Emma Kasey and Miss Forrest Moorman went to Vine Grove last week on a visit.

Use the shoe strings Suler's sell. Try the date fruit at the City Bakery. Columbia day—is on the way—Suler's.

28 brand tickets for one dollar at the City Bakery.

Do not give it out—Columbia Day—enroute—Suler's.

Columbia Day—is all right—at present—"out of sight"—Suler's.

Quite a crowd will be up from Hawesville this afternoon to attend the dance.

New Hats—Salons, all styles at low prices.—Mrs. H. V. Duncan, the milliner.

Don't miss Columbia Day—at Suler's—will be worth coming many miles to see.

Quite an improvement has been made at the depot by the placing of incense between the rails and tracks.

Rats, mice, cockroaches and moths won't stay where Burly's Deodorizing Powder is

BRECKENRIDGE NEWS.

WEDNESDAY, JUNE 14, 1883.

A Christian Baptist.

By MISS M. JENNIE BARBER.

I am now a child of light.  
I am watching and I'm longing while I wait,  
For the morning break of day,  
To my home beyond the sea,  
To my home beyond the sea,  
To my home beyond the sea.

Oh, the blessed Lord of light,  
He's shining here and there,  
He's shining here and there,  
He's shining here and there,  
He's shining here and there,  
He's shining here and there.

I am sweeping through the gate,  
Where the blessed Lord of light,  
Where the blessed Lord of light,  
Where the blessed Lord of light,  
Where the blessed Lord of light,  
Where the blessed Lord of light.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate.

And as my path leads on,  
To my Father's house the bright and best estate,  
To my Father's house the bright and best estate,

that in the next fifty years no man will be achieved. Turning northward, a much more extensive similar to the United States in products, exceeding in area and service. Those which have been developed, a new field is opened only for achievement within this region itself, but furnishing all the material essential for success abroad.

Thus, in the articles of food, limitations are already being reached, with a population of 100,000,000 and which is a small part of the great majority. There are only two things that produce food: the soil and the farmer. In the decade just closed the cities in the United States in population, increased 60 per cent, while the farmer increased only 14 per cent. The farmer showed no increase in all, rather diminishing in number and in extent of cultivation. With the increased population, referred to, it would be very soon seen that the question of food is to be one of the greatest importances within the next fifty years.

The bread which now sustains the population is from four derived: the most northern states; the exhaustion of arable lands by constant cultivation and the trend of the growth of wheat, being continually northward, Minnesota and Dakota furnish the bulk of the wheat of the United States, and this, in fifteen years, it is alleged, exports of all food products, including provisions, will cause the bread of the United States to be one of the most difficulting amount on the one hand and the increased consumption by growth of population on the other.

Under such circumstances the enormous wheat area of the British possessions in North America are of great importance to the United States. Not only is the wheat of importance as a source of supply, but by their occupancy through emigration and otherwise they would create a vast market accessible as to exclusive to the United States that nothing in its history would benefit its trade. If, Michigan, Wisconsin and Minnesota have been contributing to the benefit of this country in the production of goods on the one hand and their supply of food and raw material on the other, so will also the development of regions of equal area and equal richness within the British possessions.

The impending economic revolution, which is full of promise and danger, is the northern region of the continent, as it is regarding the foreign trade, because of the growth of wheat, being continually northward, Minnesota and Dakota furnish the bulk of the wheat of the United States, and this, in fifteen years, it is alleged, exports of all food products, including provisions, will cause the bread of the United States to be one of the most difficulting amount on the one hand and the increased consumption by growth of population on the other.

The field of opportunity for the next fifty years is the portion of the continent now unoccupied. The young men in our country are not only the most energetic, but the most ambitious, and they are the people who will be the most successful in the future. The limitations in their area in the United States have been for the most part, the result of the fact that the land is not fertile enough to support a large population. The limitations in their area in the United States have been for the most part, the result of the fact that the land is not fertile enough to support a large population.

These, however, are but the vestibule to the vast world of fields of the northwest. The future is to be made with a plot of land, a thousand miles long, from Winnipeg to the Gulf of Mexico, and a width of a thousand miles square of farming land. British Columbia, on the Pacific, completes the attractive picture for the future. The future is to be made with a plot of land, a thousand miles long, from Winnipeg to the Gulf of Mexico, and a width of a thousand miles square of farming land. British Columbia, on the Pacific, completes the attractive picture for the future.

The half century of opportunity now opening up for the coming American and girl must include within its scope this northern region, which is the source of raw material and food products essential to the success of the United States in its efforts to build up a trade other than that which exists in the country itself. It would seem that this change comes at the most appropriate time, and that revolution resulting opportunity is now before us only when needed, when needed their efforts come to pass.

If the destiny of the country limited its operations exclusively to within its own borders, there would be no reason to hope for the \$200,000,000 that in fifty years are to be taken care of in this country. But with the world open as a market, the location reduced to a minimum, without the need of a standing army, with the need of raw material and with food products cheaper than elsewhere in the world, it would seem that the destiny of the United States included the creation of a commerce with foreign lands, extending that vast internal commerce which has already centered within her own limits.

The extent and magnitude of this internal trade almost exceeds human estimate, and is one of the most wonderful demonstrations of human progress the world has ever seen, yet the foreign commerce of which the United States is capable is even more extensive than these enormous figures, and in that foreign commerce exists the hope of the future generations of this continent.

Hence the revolution which now impends in economic affairs is of great moment to the future of the United States. If the genius of the people of this country, its inventive faculty, the introduction of steam, machinery, electricity and the use of the telegraph, have been the forces that have chiefly contributed to the progress of the United States, and that the progress of the benefit of the world where they have been for this country itself, there is no apparent limit, except that the world itself, to the growth of wealth, to the augmentation of opportunity, to the achievement of this people. Fifty years hence boys now living will look back with wonderment at the narrowness of the comprehension of even great political parties, who sought to restrict the operations of the continent so vast in its forces to the development of trade within its own limits.

The growth of the United States of Great Britain is the best illustration of what may occur in the United States in the next fifty years under changed conditions. The British islands, which are a mere speck upon the map of the world, have tribute from every nation under the sun. This they do in spite of distance, and the lack of raw material, with the necessity of purchase of food products from distant climes and in circumstances altogether as disadvantageous as compared with those existing in the United States. If the commercial power of Great Britain has been regulated up to this time the commerce of the world, if she holds the supremacy of the seas by her great maritime wealth, and by her accumulations of capital she has the capital of the monetary affairs of the entire financial fabric of the earth, while the United States can do more.

It is not possible to picture the conflict that

will be achieved. Turning northward, a much more extensive similar to the United States in products, exceeding in area and service. Those which have been developed, a new field is opened only for achievement within this region itself, but furnishing all the material essential for success abroad.

Thus, in the articles of food, limitations are already being reached, with a population of 100,000,000 and which is a small part of the great majority. EXPERIMENTS WITH CORN.

The Results Gained at the Pennsylvania State College Experiment Station.

The land on which the following cultural experiments were tried is a rather compact limestone clay soil. The difference between the soil and sand is not very marked except in the supply of organic matter, which is very small. The soil is naturally well drained. It is the usual practice to plow this soil seven or eight inches deep, which is a common statement here given is of results obtained one season only and there fore might not apply to all seasons and conditions. There was during the six months of the experiments about the normal quantity of rainfall, with a deficiency in April and May and an excess in August.

Plowing land six inches deep, which had been in timothy and clover one year, gave better results with corn than shallow or deeper preparation of the seed bed, both in the quantity of grain and stover.

Corn from a plot which had no stirring of the soil after the corn was planted, but merely had the weeds removed by weeding, yielded 40 bushels of grain, 100 bushels of stover, while six inches of soil, with two inches deep and three, four inches deep, yielded about 38 bushels per acre.

Planting the ordinary medium maturing corn at the rate of one bushel every six inches in rows 42 inches apart gave a larger yield of grain than thicker sowing, giving 40 bushels of grain at the rate of one kernel every three inches gave 2,500 pounds more stover and 1,800 pounds less grain. The yield of grain at the rate of one kernel every 3 or 4 inches, was considerably less of stover and less of grain than the total yield of a less number of ears. The quantity of stover produced decreased with the number of ears.

The method of distribution, whether one, two, three or four kernels were planted per hill, did not affect the yield. The yield of grain was the same, but the stover was somewhat less. The quantity of stover produced decreased with the number of ears.

When the whole plant was cut and shocked, the yield of ear corn was 188 pounds per acre less than when the corn was merely shocked. The total yield of whole stalks weighed about 1,800 pounds per acre more than the top alone. The yield of grain was the same, but the stover was somewhat less.

At the West Virginia station trials were made on the most fertile soil of a wornout land with the object of determining the effect of kaolin used alone and in combination with phosphoric acid and nitrogen and to test the effects on the yield of using different amounts of seed cut to half the normal size.

Early Rose, White Star and Beauty of Hebron were the varieties planted. In one case where the stalks were cut, quarters and single ears were planted. Where superphosphate was used with the kaolin it was given in the form of a dust. The increase with the use of soda was very small. The smallest amount of soda was used, and the largest on the plots where kaolin was combined with superphosphate, and in the case of the White Star and Beauty of Hebron the halves, quarters and single ears produced decidedly more than the whole plant. With Early Rose the results were variable. With regard to the number and vigor of the stalks from different sized seed the director of the station says:

"We find that in all varieties the whole potato produces a greater number and more vigorous stalks than either the halves, quarters or single ears, and the general rule is a gradual diminution of the number and vigor of the stalks as the size of the pieces planted diminishes until we reach those cut to one eye in each setting. When we find the number of the stalks materially increased. Of these cut to single eyes nearly all germinated. We further find that the increased yield is not in proportion to the increase of the number of stalks. From these facts we infer that in the preparation and planting of the seed to secure the best result the potato should be so cut as to have the largest number of stalks from each piece and planted so as to secure from three to four stalks to each hill."

On the Country Road.

New England Farmer advises, in addition to the regular crops grown, that you sow peas and oats and stop buying corn and cotton seed.

The fashionable woman conserves as much elegance in her bank account as she does in her staying card. It is engraved on fine paper and has her monogram in the center of the design at the top.

Bas Spring Stock Farm!

Blue Jeans, 3.	Phillips' Black Horse	Gen. Taylor.
Roscoe	Salle W.	Kate Walker.
Puss, 109.	Rob Roy, 62	Grey Eagle, Jr.
Haggard Mary		Miss Crocker.
	Blackwood	Denmark, F. S.
	Brown Dick	
	Legtresser.	

NOTE: Foaled in 1883; bred by Price Calk, Mt. Sterling, Ky. Dark bay Stallion, nearly 16 hands high; weight, about 1,225 pounds; splendid make and tail, and has as much style as anybody's horse. He is rapid in back and trot; rides and drives nicely. When you see the style and general appearance of this horse, and couple it with his breeding, you will at once be impressed with the fact that he must make great breeders. Run back to such great sire Roscoe, Blue Jeans, 3; Rob Roy, 62, Denmark, F. S. Will make the Season of 1883 at my stable at 10 to insure a live colt.

Black Hawk is an extra Mule Jack. Will make the season at \$8 to insure a live colt. Cultivating and handling him at my place on reasonable terms. I am prepared to keep mares on reasonable terms. Will not be responsible for accidents or escapes.

Forest Home Breeding Stock.

HAYWOOD, N. S. H. B. 696. Half mile race record in pace 1:10. Is dark chestnut, star in face. Foaled 1885, and has as much style as anybody's horse. He was sired by Wyandotte Chief, 2:36; he by Old Tempest, 2:18, also sire of Black Billy, 2:22; Black Bird, 2:30; Tagard, 2:36; Zephyr, 2:31; Grey Harry, 2:21; Red Joe, 2:27 and numerous other good ones. His dam is the fastest saddle mare in the county. Haywood has never met his equal as a saddle horse, and shows saddle colts from all kinds of mares. His gait is natural, goes them by the halter or loose in the lot.

Black Jack, white points, 15 hands high, fine length, good bone and muscle with great head and ears. He is by Calwell's Giant, the great Jennett Jack of Danville, Ky., and stood at \$50.00; and is a brother in blood to Silver Crown, that sold in January 1883 for \$3,000, with one-sixth interest retained. This Jack has stood the highest test that is winning two out of three premiums at the Shelby county fair, where the pick of Kentucky are shown. This stock will make the season at M. LYDDAN'S stable. Season begins April 1st, ends July 1st, when Haywood goes in training to make a record better than 2:20.

TERMS: To insure a colt to stand up and suckle \$12.00 To insure a mare in foal \$10.00 To breed a season through \$8.00, with return privilege.

SNOW BALL-To insure a colt to stand up and suckle, \$10.00. Money due when the fact is ascertained.

COLT SHOW. Best general purpose colt, \$10.00 Best male \$10.00 Finest colt, \$12.00 Second best male \$8.00 Best saddle colt, \$8.00

Mares pastured \$2.00 per month. Accidents at owners risk.

G. N. LYDDAN, Webster, Ky.

GOVERNMENT AID FOR ROADS.

Establishment of a Department of Roads at Washington Advocated. It is safe to affirm that no subject needs greater agitation than roads, and what is true of one state is true of every other state in the Union. The roads of Massachusetts are nearly all the highways in New England, early settlers were first foot-paths, leading from cabin to cabin of the early settlers, and as the latter generally built their homes on elevations for safety, these trails in time became roads, dividing but little from the beaten track. There have been a system of highways running over the most hilly parts of our country.

To remedy this evil and construct a system of roads, the Massachusetts plans would cost millions of dollars, and the various towns would find it impossible to carry out such a project, for many of them are heavily in debt, the tax rates are high, a large number of the farms are partially or wholly abandoned, and in some portions of the state there seems to be an atmosphere of despair settling over the people. A country can ill afford to neglect the farmer or discourage any reasonable means of improving the condition of agriculture, because the life and success of a nation depends upon her agricultural resources. The prosperity of the farming community rests largely upon the facilities for communicating with the outside world. Where there are no railroads the farmer must from necessity take his produce to market over the public highways, and where the latter are bad the cost of transportation often exceeds that of the raw material.

In many of the towns throughout the state frequent discussions on the subject of "better roads" have taken place, and there seems to be a general awakening to the fact that the farmer is being cramped in his race with other branches of industry. However able and industrious the farmer may be, however much demand for his produce may increase, and the market may grow, the present facilities for transportation place in his path an obstacle which he is unable to surmount. This has a most depressing effect upon the farmer.

We believe that the time has come when the government should lend its aid, and secure proper legislation to advocate the establishment of a department of roads at Washington. The duties of this commission should be to control and instruct similar commissions maintained by the several states, and these state and national commissions should have an accurate system of building and maintaining a chain of main roads which would be for the best interests of the country. With a system of good roads, property would greatly increase in value, many of our roads would again be brought under cultivation, and much would be added to the comfort and progress of the people.

Dr. C. E. in Good Roads.

For destroying injurious miasma arising from cesspools, sinks, closets and damp cellars, Dooderding Powders has no equal. -Suber's.

Something for the boys -Babbage's.
